8* MOTION- CONSTRUCTION OF WATER PANS

Honorable Speaker, I beg to move the following motion;

THAT Noting that Laikipia County experiences erratic rainfall yearly; **Further noting that** Laikipia North, some parts of Laikipia West and East are semi-arid areas and they experience little to no rainfall yearly; **Aware that** there is a huge demand for water usage in these areas due to increase in population over the years; **Cognizant of the fact** that water pans are essential structures for rainwater harvesting, constructed using specific materials to ensure durability and functionality for agricultural and domestic use; **Further aware that** construction of water pans along the river beds will assist communities with water for domestic use, irrigation and also for livestock watering; This house urges the County Government to construct water pans along river beds that will assist communities with water for domestic use especially during the dry seasons.

(Hon. Salim Edung', Member of County Assembly Representing Segera Ward)

***Denotes Orders of the Day**
